

## ColorMatic IQ® Sun 2: THE INTELLIGENT SUNGLASSES WITH ENHANCED CONTRAST.

Good news for your eyes: Self-tinting lenses are not only available for your everyday spectacles, but also for your sunglasses. The self-tinting sunlenses ColorMatic IQ® Sun 2 from Rodenstock protect your eyes under strong sunlight thanks to their dark tint. In half-shade, the lenses lighten up to 40% and provide high-contrast vision. This ensures the best possible vision comfort at 100% UV 400 protection in every situation: during leisure and sports activities.

Set the trend with the fashionable tints Fashion Grey, Fashion Green and Fashion Brown. The contrast-enhancing tints Contrast Orange, Contrast Green and Contrast Brown let you experience perfect vision during your sports and outdoor activities. On request with stylish Solitaire® Silver Moon mirror coating for a casual look. Naturally always in your individual prescription.

# ColorMatic IQ® 2 – THE INTELLIGENT SPECTACLES.

Whether bright sunshine, artificial light, shade or twilight - the constant adaptation to changing light conditions demands peak power from your eyes. Rely on spectacles that are able to think for themselves: thanks to ColorMatic IQ® 2 - the intelligent self-tinting lenses from Rodenstock.

ColorMatic IQ® 2 lenses adapt automatically to any light situation: they are fully clear indoors and darken optimally outdoors depending on the light intensity. They simultaneously offer ideal UV and glare protection. In brief: intelligent spectacles for all everyday situations.

ColorMatic IQ® 2 lenses are available in three timeless design tints:

Chocolate Brown

- Lightly contrast-enhancing in the darkened state
- Stimulating and motivating effect

Pure Grey

- Consistent colour reproduction in all light conditions
- Neutral and balancing effect

Racing Green

- Very natural, slight contrast enhancing colour reproduction in the darkened state
- Soothing, relaxing and calming effect

1

Lenses fully clear indoors

2

Medium tint in the half-shade

3

Dark tint in the sun

## OVERVIEW OF ADVANTAGES.

- Exceptional vision experience: Absolutely as clear as conventional lenses indoors and pleasantly dark in the sun
- Automatic adaptation to changing light conditions: noticeably fast darkening and fading
- Optimum glare protection and relaxed vision at all times
- An exclusive selection in three timeless design tints
- 100% UV 400 protection under all light conditions
- Long service life and robust: Lenses you can rely on

Like every masterpiece, your Rodenstock lenses also have a personal signature - the *R* brand trademark. So you can recognize 100% German engineering at a glance.
